

Material Safety Data Sheet (MSDS)

BEN SRL

N. of the product list: LA 9912
Nome of the product: D-LATTIC ACID 5x20mL

According with CE 2001/58/CEE Directive

<p>1. Company and product identification</p> <p><i>Identification of product</i></p> <p>N. of the product list: LA 9912 Name of the product: D-LATTIC ACID 5x20mL</p> <p><i>Identification of society</i></p> <p>Society: BEN SRL * 20127 MILANO * ITALY * Tel.: ++39 (02)2871829 ++39 (02)2871893 Fax : ++39 (02)2890853</p> <p>Emergency Telephone: Poison Information Centre * NIGUARDA HOSP.* MILAN*ITALY ++39 (02)66101029 or the same Centre near your Local Reference HOSPITALS (www.eu.int/comm/health/ph_threats/Bioterrorisme/chem_guidelines_dir_en.htm)</p>	→
<p>2. Composition and information of the ingredients</p> <p>See the package insert.</p>	→
<p>3. Identification of powerful</p> <p>Could be harmful for ingestion.</p>	→
<p>4. Measure of first aid</p> <p>After contact with skin : wash with a lot of water. After contact with eyes: wash with a lot of water keeping the eyes open. After ingestion: drink a lot of water and call a medicine doctor.</p>	→
<p>5. Measure of fireproof</p> <p>Means of extinction adapts: N/A</p> <p>Particular risk: N/A</p>	→
<p>6. Means for accidental emissions</p> <p>Precaution means for the person: avoid the contact with the substance. Procedure for wash/adsorbiment: dry . Follow with the discharge. Wash the interested zone.</p>	→

N. of the product list: LA 9912
Nome of the product: D-LATTIC ACID 5x20mL

According with CE 2001/58/CEE Directive

<p>7. Manipulation and storage</p> <p><i>Manipulation:</i> No other exigency.</p> <p><i>Storage:</i> Well close: in refrigerator (recommendation: from +2° at +8° C)</p>	→
<p>8. Check of the exposition and individual protection</p> <p><i>Equipment of protection:</i></p> <p>Protection of respiratory function: no require. Protection of the eyes: no require. Protection of hands: facultative.</p> <p>Hygiene industrial: On suggest to wash the hands after working with the substance.</p>	→
<p>9. Physical and chemical properties</p> <p>Status: Liquid/Lyoph. Colour: Without colour. Smell: Without smell.</p> <p>Value of pH of buffer : N/A</p> <p>Dissolution time of lyophilised: N/A</p>	→
<p>10. Stability and reactivity</p> <p><i>Conditions to avoid :</i> No particular conditions.</p> <p><i>Substance to avoid:</i> as up.</p> <p><i>Dangerous product if decomposed:</i> as up.</p>	→
<p>11. Toxicological information</p> <p><i>Acute Toxicity :</i> Quantitative datas for toxicity of this product are not available.</p> <p><i>More toxicological information:</i> Not available.</p>	→
<p>12. Ecological information</p> <p>Do not allow the contact with drop water, discharge water and surface.</p>	→
